

EcoStar 720 & 750 Oil Condensing Range. 20- 62kW.

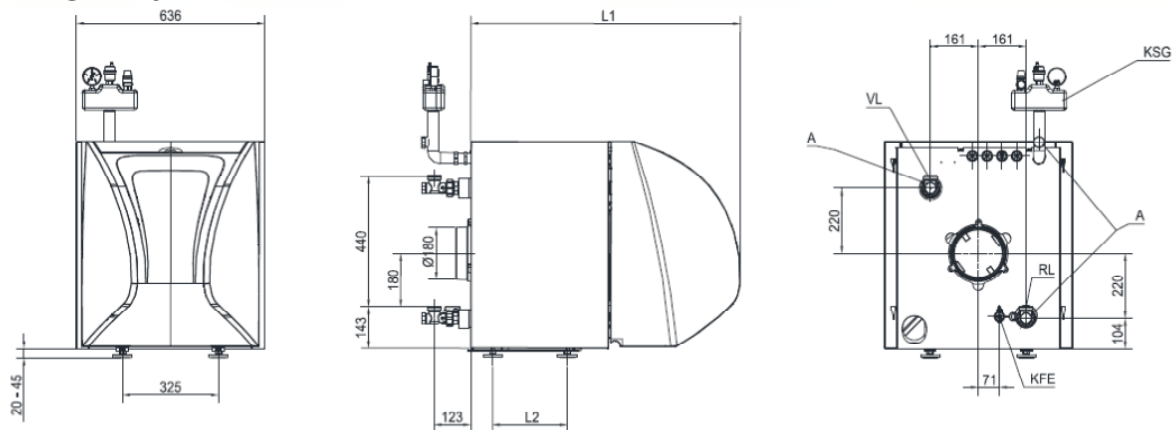

- A combination of the tried and trusted cast iron primary heat exchanger and revolutionary corrosion resistant stainless steel secondary heat exchanger.
- The use of the matched soot free Low NOx, Blue Flame Rocket Burner ensures optimum efficiency throughout the operating year. >104%.
- Low Sulphur and Bio-Diesel fuel ready.
- Integral control system ensures optimum heat generation.
- Integral cascade functionality.
- Hybrid heating system compatible. Heat pump and solar control via cascade.
- Open flued DN100 PPS flue system.
- Full building management integration.
- Outputs available 20, 40, 49 & 62kW.
- Comprehensive 36 month warranty.
- Available in non condensing versions. (723-726)

EcoStar 720 & 750 Oil Condensing Range. 20- 62kW.

EcoStar 723 - 726

Item	Description	Units	723	724	725	726
	Boiler Output (80/60)	kW	27.8	37.0	45.4	55.6
A	Initial Connection	BSP	1			
KFE	Drain	BSP	½			
KSG	Safety Set					
L1	Overall Length	mm	910	1040	1170	1300
L2	Support Separation	mm	255	385	515	645
VL	Flow Connection	BSP	1 ½			
RL	Return Connection	BSP	1 ½			
	Hydraulic Pressure Loss	mbar	10	12	13	14
	Dry Weight	kg	185	230	270	310

EcoStar 753 - 756

Item	Description	Units	753	754	755	756
	Boiler Output (80/60)	kW	28.8	38.5	47.1	57.7
	Boiler Output (50/30)	kW	31.0	41.4	50.7	62.1
A	Initial Connection	BSP	1			
KFE	Drain	BSP	½			
KSG	Safety Set					
L1	Overall Length	mm	1290	1420	1550	1680
L2	Support Separation	mm	255	385	515	645
VL	Flow Connection (Pump Kit)	BSP	2			
RL	Return Connection (Pump Kit)	BSP	2			
	Hydraulic Pressure Loss	mbar	30	32	33	34
	Dry Weight	kg	205	250	290	330
