

GE, GZ, GM & GMC Gas Burner Range. 15-15,000kW.

- GE Gas burners with outputs from 15kW to 65kW. Single stage.
- Low fuel consumption due to enhanced combustion process.
- Easy Maintenance due to revolutionary casing design.
- Universally applicable with all available boiler types.
- GZ Gas burner with outputs from 100kW to 1,500kW. Two Stage.
- Multi-directional gas connection.

- GM Modulating Gas burners with outputs from 25kW to 15,000kW.

- GMC Dual Fuel Burners with outputs from 120kW to 15,000kW.

DE & DZ Oil Burner Range. 15-1450kW.

- DE Yellow Flame Oil Burner. Single Stage.
- Outputs from 15kW to 96kW.
- Easy Maintenance due to revolutionary casing design.
- Universally applicable with all available boiler types.
- Low Sulphur oil compatible.
- Biodiesel compatible.

- DZ Yellow Flame Oil Burners. Two Stage.
- Outputs from 100kW to 1450kW.
- Easy Maintenance due to revolutionary casing design.
- Universally applicable with all available boiler types.
- Low Sulphur oil compatible.
- Biodiesel compatible.
