36 month warranty
for all our products***

**Terms and conditions apply*

Maximum output in the smallest space: That is what our new gas condensing boiler ProCon 77 stands for. Take advantage of German build premium quality with top operating efficiency – also ideally suited for replacing the MICROMAT 76 (previously branded as the Strata 1).

Top features at a glance

- Wall-mounted premium gas condensing boiler (13.5-74.6 kW)
- Top operating efficiency through wide modulation range > 1 : 5
- Operating efficiency up to 108.5 per cent
- High performance heat exchanger (stainless steel) with 5 year warranty
- Very easy maintenance
- Only proven premium components are used to ensure high reliability and long service life
- Integral cascade management for up to 12 boilers (HM)
- Full system control capability
- Ideal for integration in MHG system technology (thermal solar systems, tanks, heat pumps)
- Direct from the manufacturer
- Excellent pre and post sales support
- More power for your £

The new ProCon 77: Gas condensing technology at its best.

MHG Heating Ltd – Simply better.

Swap your boiler for the new ProCon 77: It really is that simple.

- Direct replacement for the Micromat EC
- Appliance width identical to the Micromat EC 45-75 (Strata 1 45, 60 & 75)
- Appliance height 200 mm shorter to allow for greater installation flexibility
- Hydraulic configuration identical to Micromat EC 45-75 (Strata 1 45, 60 & 75)
- Gas and condensate configuration identical to Micromat EC 45-75 (Strata 1 45, 60 & 75)
- Flue adapters available
- Enhanced control integration ability
- Expandable control system for complete system integration
- Single heat exchanger appliance
- Only two moving parts
- 36 month warranty T & C apply

Well thought-out right down to the last detail: The clear and logical design coupled with optimum access to every component means that the boiler is simple to install and maintain.

To be combined with the ProCon 77: Sophisticated and customised premium system technology.

The new ProCon 77: Gas condensing technology at its best.
